

Patrick Harden

Web Developer

Hey, I'm a web developer who specializes in react, wordpress, laravel, and can build some of the fastest websites on the internet.

Work Experience

React Developer

Imaginuity

January 2019 - March 2019

As a contractor, I handled developing react/wordpress applications for shopping malls. Introduced new react-static/wordpress framework which can be seen at <https://halycon.netlify.com/>. This framework produces the fastest wordpress websites on the internet and incorporates features such as modular website building, gravity forms, and feature rich customization.

- Developed React framework
- Managed deployment

Web Developer

AM

August 2018 - December 2018

I worked primarily on their custom proprietary cms, which was a mixture of laravel, php, Vue, SQL, Javascript, css and html. In addition, I aided in developing several wordpress sites, writing custom php plugins and scripts required to meet the client's needed functionality.

- Worked with Vue/Laravel/PHP/SQL
- Managed Servers
- Learned database management
- Worked with AWS

Web Developer

Expect3

February 2018 - July 2018

I was responsible for maintaining and updating 120+ wordpress sites in addition to pioneering react-static wordpress framework. As the sole developer, I managed

- Managed 120+ sites
- Learned React
- Created custom plugins
- Implemented Modular websites

Junior Web Developer

Seed Technologies

December 2016 - December 2017

As a Junior, my primary role, initially, was to convert photoshop files into a amalgamation of js/css/html. We worked in a .NET environment and I familiarized myself with an MVC ecosystem. Later on, I began working on an Angular/C# web application which managed Life insurance policies

- Built Client Websites
- Angular 2/4
- Honed in JS/CSS/HTML skills
- .NET environment

Education

Bachelor of Arts in Philosophy, Minor in Computer Science

Oklahoma State University

2011 - 2016
